

# We Are Certified

On June 6<sup>th</sup>, 2014 we received our official BioGro Certification. We continue to add value to what we do and produce for our clients and customers. The official BioGro Certification validates compliance with standards and organizations spanning over 100 countries.

**We are:**

## **We Are Non GMO: What is GMO?**

GMOs, or “genetically modified organisms,” are plants or animals created through the gene splicing techniques of biotechnology (also called genetic engineering, or GE). This experimental technology merges DNA from different species, creating unstable combinations of plant, animal, bacterial and viral genes that cannot occur in nature or in traditional crossbreeding.

***We are proudly Non-GMO for your health and safety.***

Since 1972, IFOAM has occupied an unchallenged position as the only international umbrella organization of the organic world, i.e. all stakeholders contributing to the organic vision. This allows IFOAM to unite, lead and assist the organic movement - all IFOAM Affiliates - in its full diversity, while providing a common voice on relevant organic issues. IFOAM implements the will of its broad-based constituency, with Affiliates in more than 100 countries and is governed by a World Board originating from all continents. The IFOAM Action Network comprises self-organized IFOAM regional and sector groups and daughter organizations.

***We meet or exceed IFOM Standards for your health and safety.***

The Japanese Agricultural Standards (日本農林規格 (Nihon Nōrin Kikaku?)) are standards for the agriculture industry maintained by the Japanese Government. They are comparable to Japanese Industrial Standards but for food and agricultural products. Once a product has passed tests conducted by government-backed rating bureaus the JAS seal is appended to the product.

***We meet or exceed JAS Standards for your health and safety.***

## **OOAP: Official Organic Assurance Programme**

The OOAP reciprocal agreements include the ***United States of America (USDA), European Union, Switzerland and Taiwan.***

***We meet or exceed OOAP Standards for your health and safety.***
